

Andrew E. Cooperman, M.D. has been a musculoskeletal radiologist at Center for Diagnostic Imaging (CDI) since 1997. Prior to joining the Twin Cities' CDI team, Dr. Cooperman was medical director at CDI in Central Florida. He earned added qualifications in musculoskeletal imaging by completing a fellowship at Duke University Medical Center in Durham, North Carolina. Prior to that, he served a residency in the Department of Diagnostic Radiology at Allegheny General Hospital, which is part of the Medical College of Pennsylvania and Hahnemann University in Pittsburgh, Pennsylvania. Dr. Cooperman received his medical degree from SUNY Health Science Center in Syracuse, and graduated with Cum Laude honors from Colgate University in Hamilton, New York.

During his career, Dr. Cooperman has co-authored several articles on musculoskeletal imaging in *Skeletal Radiology*. He is currently a member of the Radiological Society of North America, American Roentgen Ray Society, American College of Radiology and Society of Skeletal Radiology.
