

Hollis M. Fritts, M.D.

Hollis M. Fritts, M.D., is a musculoskeletal radiologist at Center for Diagnostic Imaging (CDI). Dr. Fritts graduated from the University of Texas in Austin and received his medical degree from the University of Texas Medical Branch in Galveston. He completed a radiology residency and MRI fellowship at the University of California, Irvine. Since joining CDI, he has gained a national reputation as a specialist in musculoskeletal and sports medicine imaging.

Dr. Fritts has authored and co-authored many articles in professional journals that include *Clinical Orthopaedics and Related Research*, *American Journal of Roentgenology*, and *Seminars in Ultrasound, CT and MRI*. He recently authored a chapter entitled, "MRI and Shoulder Imaging" in Dr. Richard Hawkins' book, *Shoulder Injuries in the Athlete: Surgical Repair and Rehabilitation*.

Dr. Fritts is a senior member of the Society of Skeletal Radiology and a member of the American College of Sports Medicine, the American Roentgen Ray Society, the International Society of Magnetic Resonance in Medicine, and the Clinical Magnetic Resonance Society.
