

SPINE RADIOLOGIST

## William J. Mullin, M.D.

William J. Mullin, M.D., is a spine radiologist at Center for Diagnostic Imaging (CDI). Since joining CDI in 1993, he has developed a specialty in therapeutic and diagnostic spine injection procedures. Dr. Mullin completed his undergraduate work and medical education at the University of California, Irvine. During his residency at the university, he served as Chief Resident and was awarded the Mallinckrodt Award for Academic Excellence. He then completed an MRI fellowship at Long Beach Memorial Hospital.

While in training, Dr. Mullin published many articles in professional journals, including *Applied Physiology*. His professional affiliations include the American College of Radiology, American Medical Association, and Radiological Society of North America.
